

2024

A Year
packed with
Highlights

01 JANUARY 2024

Happy New Year

Dear business partners and friends,

With this annual preview of important milestones in our current projects, we send our best wishes for a happy, successful and inspiring new year.

At the same time, we want to thank you for your trust in our team and our expertise.

We are very much looking forward to new and exciting challenges in the coming year and to continuing our great collaborations.

In 2024, let us achieve many new milestones together.

Your PROPROJEKT team

21 FEBRUARY 2024

Smart Minds

The city of Frankfurt am Main is planning to newly build the *Friedrich-Fröbel primary school* in Frankfurt Niederrad and is inviting tenders for the necessary planning services by means of a non-open realisation competition. PROPROJEKT is supporting the Office for Construction and Real Estate of the City of Frankfurt am Main in organising the competition. We are looking forward to the first consultation colloquium with the participating offices in February and to exciting and innovative architectural concepts for the contemporary education of young people.

15 MARCH 2024

Office Atmosphere

Last year, for the first time, we evaluated the *carbon footprint* of our offices, our consumables and our business trips for 2022 and offset them accordingly. We do not intend to stop here, as we will be carrying out a new survey of our *carbon footprint* for 2023 by mid-March to highlight possible changes and identify potential savings. We are aware of our responsibility towards future generations and aim to contribute to a sustainable world.

05 APRIL 2024

Happy Birthday

We congratulate our company founder Hanskarl Protzmann on his 80th birthday. Following his work as Head of the Building Department of the City of Frankfurt am Main in the early 1990s, Hanskarl founded *PROPROJEKT Planungsmanagement & Projektberatung GmbH* together with *AS+P Albert Speer + Partner GmbH* in 1996. His idea of offering strategic consultancy services in the early phases of complex projects is still part of our DNA today. It is also thanks to Hanskarl's management style that we enjoy and cultivate a close and trusting relationship with each other and we are always happy when he spontaneously drops by to visit us.

17 MAY 2024

Breaking New Ground 2027

On 17 May, the FIFA Women's World Cup 2027 will be awarded at the FIFA Congress in Bangkok. Last year, PROPROJEKT supported Belgium, the Netherlands and Germany during the bidding process and supported the development of a multi-country, sustainable and fan-focussed concept. Now is the time to *cross our fingers* for a successful award to BNG2027 and another successful bid, to which we were able to contribute!

14 JUNE 2024

Kick-Off

We are looking forward to the start of the UEFA EURO 2024 on 14 June 2024 in Munich and are very proud to have been involved from the initial idea to the final in Berlin. Six years ago, we provided the DFB with professional support throughout the entire bidding process, compiled the bid documents and coordinated the involvement of a large number of stakeholders. In addition, we developed a sustainability concept that was also submitted with the bid for the first time. Since last summer, we are now supporting the Sports Metropolis Berlin as a host city. So we are doing our utmost, but according to „Adi“ Preißler, *the truth is on the pitch!*

26 JULY 2024

Golden Dreams

We are keeping our fingers crossed for all *Team D* athletes at the Olympic and Paralympic Games in Paris 2024 and are looking forward to many encounters at the *German House*. As the meeting point for athletes, sponsors, press and fans, the *German House* will be located in the 20,000-capacity *Stade Jean-Bouin* in the immediate vicinity of the *Parc des Princes* and the *Stade Roland Garros* during the Games. As the official partner of *Team D*, we are delighted to have developed the largest *German House* of all time, from planning and project management through to construction, together with Deutsche Sportmarketing GmbH.

01 AUGUST 2024

Time to Travel

To ensure that the well-earned holiday already begins on the plane, the right food menu is a must. As part of the *coordinated construction logistics* project, PROPROJEKT is involved in the construction work for the expansion of Frankfurt Airport. The new *GateGourmet service road* will be completed in summer 2024. Thanks to the newly created subway under the A3 motorway, the food will now get from the kitchen to your (*flying*) plate even faster.

17 SEPTEMBER 2024

Planning Expertise

The 17th *Federal Congress on National Urban Development Policy* will take place on 17-18 September 2024 in Heidelberg. Following the successful launch of a new concept last year, the congress will create links between content-related arenas and excursions in 2024. Over 1,000 participants from science, administration and civil society are once again expected to attend. PROPROJEKT has been supporting the *Federal Ministry for Housing, Urban Development and Building (BMWSB)* for many years in coordinating the participating institutions and assisting with the preparation, implementation and documentation of the Federal Congress content and organisation.

07 OCTOBER 2024

Trade Fair Time

Traditionally, autumn is an important time for us to attend the relevant network meetings. We are therefore looking forward to good discussions and an inspiring exchange with our customers and business partners at *Expo Real* in Munich, the international trade fair for the property industry, as well as at the *Arena Summit* in Frankfurt am Main, the most important industry gathering for the project development and realisation of stadiums and arenas.

22 NOVEMBER 2024

Your Milestone

Whether project development, process support, project or event management — this could be the milestone of your new project that you would like to initiate, design, manage or realise with us in 2024. *We're looking forward to it and remain curious.*

16 DECEMBER 2024

Ground-Breaking Ceremony

Construction work on a new residential complex for the *St. Katharinen- und Weißfrauenstift* in the "Leuchte" development area in Frankfurt Bergen-Enkheim is expected to begin in mid-December. In line with the purpose of the foundation, flats for senior citizens and two apartment blocks are to be built on the approx. 3,600 m² site, which will be made available for rent in particular to employees of the foundation and staff from the care and social sector. PROPROJEKT is supporting the *St. Katharinen- und Weißfrauenstift* with project management services in accordance with AHO at all stages of the project.
